

## OUR BRAINS TRUST

# Our Advisory Board

Behind every good idea is a bunch of people telling you why it might not work. Lucky for us, our Volunteer Advisory Board embraces all outcomes. These fine folk bring the brainpower, the highlighters and underscores, and the occasional well-timed reality check to keep us from going completely off track.

Their job? To keep us sharp, guide our decisions, and make sure we don't get lost in a sea of corporate jargon. They challenge us, inspire us, and occasionally remind us to go for a surf.

**GEOFF HOTTON**  
Environmental Advisor &  
Mentor
